---	--

Dear Mr. Zurita :

RE: Response to - Election/Restrictions:

- Application Control Number: 09/877,094

In reply to your letter dated 27 October 2004 and re-mailed 27 January 2005 please find:

- A) The original Generic Claim OCT 27, 2004 ; 1 page
- B) The Revised Claims April 25, 2005; 2 pages
- C) Revised Claims Clear Text April 25, 2005; 1 page
- D) Fee Transmittal for FY 2001; 1 page

The revised claims:

- correct the informalities noted your letter
- In Claim 1, avoid confusion with browser reload buttons and specify that is client side only.
- In Claim 6, "to overcome browser cache" was added to distinguish the "intermediate referring page" from other pages that only link to the order summary pages. Technically, as explained in the disclosure, the browser will reload an outdated order summary page from the browser cache. Since the item selection varies, it is necessary to direct the browser to an "intermediate referring page" so that the browser displays the current item selection.
- It is believed that the claims are sufficiently narrow to avoid references you emailed on 19 April 2005. Claim 1 specifies "a web browser for online electronic shopping". Claim 9 specifies wherein said order page, ..., displays of at least one item for said selection or change of item quantity. This clearly different from spread sheets with cells to fill; loan calculators filling in the blanks to compute financial values; and as best as I can determine the OmniForm 4.0 desktop form filling application which requires "item id" to bring up description, price It is not clear what functionality of desktop application was exportable the custom web servers, but since only their servers can be used it implies client-server relationship, not a client side application.

Since we are proceeding a general set of claims, I withdraw the following claims from further consideration:

- claims 20-34 (III)
- claims 35-46 (IV)
- claims 47- 60 (V)
- claims 61-69 (VI)
- and claims 70-72 (VII).

In my current claim set there is one independent claim and nine dependant. The attached Fee Transmittal for FY 2001 shows Extra Fee Claim Fees of \$628.00 which I request a refund which can be processed at such time to be applied to the patent grant or refunded should patent be denied.

Yours Truly

Douglas C Morrison

Application Control Number: 09/877, Generic Claim OCT 27, 2004

1. A method, of using a web browser for electronic shopping on a computer, that upon a selection or a change of quantity of an item on at least one order page or on at least one order summary page, calculates specified transaction amounts and records selected item data without browser load or reload. (914-924, 934-940, 955-962)
2. Further to method of claim 1, to complete a transaction at least one order summary page adapted to vendors needs. (413-417)
3. Further to method of claim 1, optionally comprising a method of recording with said recorded item data, the time of making said selection or change.
4. Further to method of claim 1, upon loading any order page or any order summary page, a method that recalls the quantity of previously selected item(s) from said recorded item data and displaying said specified transaction amounts. (1020-1032, 1121-1133, 1220-1236)
5. Further to method of claim 4, wherein said specified transaction amounts are calculated using values from all said recorded item data. (930-940, 950-962)
6. Further to the method of claim 4, a method of reloading said order summary page once, using an intermediate referring page. (1215).
7. Further to method of claim 1, an optional method of calculating of said specified transaction amounts for at least one order page using a running subtotal based on each change of page total. (910-924)
8. Further to method of claim 7, the method of said order summary page recording a value for subsequent calculations. (939)
9. The method of claim 1, wherein said order page, in one of plurality of formats, displays of at least one item for said selection or change of item quantity.
10. The method of claim 1, wherein said order summary page, in list or optional picture format, displays all selected item(s).
11. The method of claim 1, further comprising a method of providing elements to access any said order page and any said order summary page.
12. Further to method of claim 1, an optional method of providing item descriptive name, item price, and item preview image with immediate access to item detailed information.
13. Further to method of claim 1, at least one order page and at least one order summary page on; a network, at least one vendor computer, at least one client computer connected said network.
14. Further to method of claim 1, an optional article of manufacture, wherein the item data is obtained in whole or in part from the portable computer medium.

Application Control Number: 09/877, Revised Claims April 26, 2005

1. (Currently amended) A method, of using a web browser for online electronic shopping on a computer, that upon a selection or a change of quantity of an item on at least one order page or on at least one order summary page, calculates specified transaction amounts on the browser page and records selected item data ~~without browser load or reload~~ on the client computer. (914-924, 934-940, 955-962)
2. (Cancelled) Further to method of claim 1, to complete a transaction at least one order summary page adapted to vendors needs. (413-417)
3. (Cancelled) Further to method of claim 1, optionally comprising a method of recording with said recorded item data, the time of making said selection or change.
4. (Currently amended) Further to method of claim 1, upon loading any order page or any order summary page, ~~a method that recalls the quantity of previously selected item(s) from said recorded item data and displaying said specified transaction amounts; recall and display of previously selected item(s) quantity for the page from said recorded selected item data; calculation and display of said specified transaction amounts.~~ (1020-1032, 1121-1133, 1220-1236)
5. (Currently amended) Further to method of claim (4) 1, wherein said specified transaction amounts are calculated using values from all said recorded item data. (930-940, 950-962)
6. (Currently amended) Further to the method of claim (4) 1, ~~a method of reloading wherein said order summary page is reload once, using an intermediate referring page to overcome browser cache.~~ (1215)
7. (Currently amended) Further to method of claim 1, ~~an optional method of optionally~~ calculating of said specified transaction amounts for at least one order page using a running subtotal based on each change of page total. (910-924)
8. (Currently amended) Further to method of claim (7) 1, ~~the method of said order summary page optionally recording a value for subsequent calculations of the running subtotal.~~ (939)
9. (Original) The method of claim 1, wherein said order page, in one of plurality of formats, displays of at least one item for said selection or change of item quantity.
10. (Currently amended) The method of claim 1, wherein said order summary page, in list or optional picture format, ~~one of plurality of formats~~ displays all selected item(s).
11. (Currently amended) The method of claim 1, ~~wherein said order page and said order summary page further comprise comprising a method of providing~~ elements to access any order page and any order summary page.
12. (Cancelled) Further to method of claim 1, an optional method of providing item descriptive name, item price, and item preview image with immediate access to item detailed information.

Application Control Number: 09/877, Revised Claims April 25, 2005 cont.

14. (Cancelled) Further to method of claim 1, an optional article of manufacture, wherein the item data is obtained in whole or in part from the portable computer medium.

Application Control Number: 09/877, Revised Claims Clear Text April 26, 2005

1. A method, of using a web browser for online electronic shopping on a computer, that upon a selection or a change of quantity of an item on at least one order page or on at least one order summary page, calculates specified transaction amounts on the browser page and records selected item data on the client computer.
4. Further to method of claim 1, upon loading any order page or any order summary page: recall and display of previously selected item(s) quantity for the page from said recorded selected item data; calculation and display of said specified transaction amounts.
5. Further to method of claim 1, wherein said specified transaction amounts are calculated using values from all said recorded item data.
6. Further to the method of claim 1, wherein said order summary page is reload once, using an intermediate referring page to overcome browser cache.
7. Further to method of claim 1, optionally calculating of said specified transaction amounts for at least one order page using a running subtotal based on each change of page total.
8. Further to method of claim 1, said order summary page optionally recording a value for subsequent calculations of the running subtotal.
9. The method of claim 1, wherein said order page, in one of plurality of formats, displays of at least one item for said selection or change of item quantity.
10. The method of claim 1, wherein said order summary page, in one of plurality of formats, displays all selected item(s).
11. The method of claim 1, wherein said order page and said order summary page further comprise elements to access any order page and any order summary page.
